- <http://bugs.4d.fr/fixedbacklist?Version=16>
- http://bugs.4d.fr/fixedbacklist?Version=16_R2
- http://bugs.4d.fr/fixedbacklist?Version=16_R3
- http://bugs.4d.fr/fixedbacklist?Version=16_R4
- http://bugs.4d.fr/fixedbacklist?Version=16_R5

Library Update

Hunspell: Upgrade to update `v1.6.2`

New type for Write Pro attribute

Beginning in 4D v16 R6, the “WP GET ATTRIBUTES” command applied on attributes “wk image”, “wk list style image” and “wk background image”, returns the image itself instead of the image url if the specified variable has not been declared.

Similarly, the “OB Get” command and its dot notation equivalent returns the image itself instead of the image url when using the following attributes: “wk image”, “wk list style image” and “wk background image”.

New attributes have been added to retrieve the image URL: wk image url, wk list style image url and wk background image url”

4D commands renamed

“WP Get paragraphs” has been renamed by “WP Create paragraph range”

“WP Get pictures” has been renamed by WP Create picture range”
